

Coastal Forum | October 8, 2018 | Boston, MA

The Coastal Forum is a ULI member-initiated project to bring together leaders in real estate, land use and climate resilience to share best practices for coastal development. The Forum offers a dialogue-based setting to analyze trends, share tools and resources, and tour examples of innovative waterfront projects in Boston.

Forum Goals:

- Provide an opportunity for members to meet and build a network with peers of different professional backgrounds involved in coastal development and/or resilience
- Share best practices, knowledge, and insights into coastal development trends
