About the Rose Center

The Rose Center was created in 2008 by a gift to ULI from Daniel Rose, chair of New York-based Rose Associates, Inc. The Rose Center convenes forums and workshops on topical land use issues for public sector leaders. Its flagship program, the yearlong Daniel Rose Fellowship, provides professional development and technical assistance on a local land-use challenge focusing on leadership, integrated problem solving, public-private collaboration, and peer-to-peer learning.
